RESPONSE TO NOTICE TO COMPLY

charged to Deposit Account No. 50-1213. If a Petition for extension of time is needed, this paper is to be considered such Petition.

The Substitute Sequence Listing differs from the Sequence Listing as originally filed in that the Substitute Sequence Listing corrects the errors noted in the Raw Sequence Listing and Sequence Verification Summary accompanying the Notice to Comply, mailed on July 10, 2001 as follows:

The global spelling error of the word Immunodeficiency has been corrected in all the numeric identifiers <213> which include the misspelled word;

The word "Immunodificiency" was replaced with —Immunodeficiency—. The global typographical error of "<0>" for the first coding base was replaced with <1> in all <222> locations where present.

The Substitute Sequence Listing contains no new matter. Accordingly, entry of the Substitute Sequence Listing into the file history of the above-captioned application is respectfully requested.
